

Islamic Relief Worldwide

2011 Annual Report and Financial Statements

Our Vision

Inspired by our Islamic faith and guided by our values, we envisage a caring world where communities are empowered, social obligations are fulfilled and people respond as one to the suffering of others.

Our Mission

Exemplifying our Islamic values, we will mobilise resources, build partnerships, and develop local capacity, as we work to:

- ♦ Enable communities to mitigate the effect of disasters, prepare for their occurrence and respond by providing relief, protection and recovery.
- ♦ Promote integrated development and environmental custodianship with a focus on sustainable livelihoods.
- ♦ Support the marginalised and vulnerable to voice their needs and address root causes of poverty.

We allocate these resources regardless of race, political affiliation, gender or belief, and without expecting anything in return.

Our Values

We remain guided by the timeless values and teachings provided by the revelations contained within the Qur'an and prophetic example, most specifically:

Sincerity (Ikhlas): In responding to poverty and suffering our efforts are driven by sincerity to God and the need to fulfil our obligations to humanity.

Excellence (Ihsan): Our actions in tackling poverty are marked by excellence in our operations and conduct which are deserving of the people we serve.

Compassion (Rahma): We believe the protection and well-being of every life is of paramount importance and we shall join with other humanitarian actors to act as one in responding to suffering brought on by disasters, poverty and injustice.

Social Justice (Adl): Our work is founded on enabling people and institutions to fulfil the rights of the poor and vulnerable. We work to empower the dispossessed towards realising their God-given human potential and developing their capabilities and resources.

Custodianship (Amana): We uphold our duty of custodianship over the earth, its resources and the trust people place in us as humanitarian and development practitioners to be transparent and accountable.

Message from the Chair

As salamu alaykum
Peace be upon you all.

This year marked one of the most significant milestones for Islamic Relief since it was established more than 27 years ago. 2011 was the year we embraced a new and important strategic direction which responds to the emerging challenges that we face in the battle against poverty, suffering, and social injustice.

Our new global strategy recognises that poor and suffering people have defined rights over us - resonating much more directly with the principles of our faith - and emphasises the value that faith perspectives bring to the humanitarian agenda. It sets out a clear leadership role for Islamic Relief in addressing the underlying causes of poverty, and in helping people to prepare for crisis and disasters across the world.

We are focussing our programmes more on building the capacity of communities, enabling communities to adapt to climate change, and ensuring child protection and welfare. We are also working to address inequalities, particularly in good governance, rights, gender justice, and child welfare. This is complemented by a focus on strengthening the Islamic Relief family itself, and includes significant developments to our global governance arrangements.

As we embark on this journey, the Board of Trustees would like to thank our outgoing CEO, Saleh Saeed, for his leadership and dedication which has allowed us to achieve all that we have over the past few years and set the course for the next phase of our work. We would also like to welcome Dr Mohamed Ashmawey, our incumbent CEO, who arrives with years of experience in the corporate world that will help us in our drive towards greater efficiency and effectiveness in our work.

I welcome you to this report, which gives you information about our new global strategy and how, with the generous support of our donors, this innovative approach is already allowing us to deepen the positive impact we make on the lives of the poorest people in the world.

Dr Essam El Haddad
Chair of the Board of Trustees

Message from the CEO

As salamu alaykum
Peace be upon you all.

In 2011, Islamic Relief, by the grace of God, continued to alleviate suffering through its humanitarian programmes around the world.

In east Africa we were able to deliver food and relief commodities to the millions who faced starvation. In north Africa and the Middle East, our response to the humanitarian fall-out from the Arab Spring extended to over four countries, with Islamic Relief being one of the first NGOs to reach those displaced by violence in Libya.

In line with our new organisational strategy launched this year, we focussed our efforts on building local capacity and long-term resilience. We did this effectively in Pakistan through integrated development programmes, in Haiti through rebuilding communities and by promoting disaster preparedness and prevention in Bangladesh.

Our sustainable development work in 2011 included developing sea fisheries in Indonesia, helping farmers increase their income in the West Bank and supporting the production of Arabic gum for poor communities in rural Chad. Our new global strategy also commits us to developing our own capacity to increase impact and one of the ways we did this is by opening a new office in Australia. We were also pleased to receive a positive Disasters Emergency

Committee (DEC) Accountability report this year, which demonstrates the strides we have taken in developing our accountability and transparency standards even further.

Many of these achievements were driven by the efforts of my predecessor, Saleh Saeed, who dedicated over three years to Islamic Relief before handing over to me in February 2012. I would like to thank him for all his sincerity and hard work, on behalf of all those whose lives have been touched by Islamic Relief.

As I look forward to taking Islamic Relief further in the service of humanity, I present to you our Annual Report and Financial Statements 2011, with a big thank you for your continued support.

Wa salaam/ In peace

Dr Mohamed Ashmawey
CEO of Islamic Relief Worldwide

A photograph of three young children, likely of North African descent, smiling and looking towards the camera. They are wearing white t-shirts. The child in the foreground is a boy with a wide, joyful smile, showing his teeth. Behind him, another boy is also smiling. A third child, partially visible at the top, is also smiling. The background is a blurred, sandy or dusty ground.

Libyan children enjoy activities organised by Islamic Relief in Ramada Camp, Tunisia.

An innovative new strategy

This year saw Islamic Relief kick-start an innovative new strategic direction, which brings our vision, mission and values in line with the much-needed work we will be doing over the next five years.

Our new strategy is informed by a comprehensive review in 2010 of our organisational strategy, where we examined the values, motivation and approach that we base our work on.

Embracing a new understanding of poverty

Our understanding of poverty and development has moved on, and now resonates much more directly with the principles of our faith.

In 2011, we left behind a ‘needs based’ outlook and embraced a ‘rights based’ approach which recognises that poor and suffering people have rights over us, as defined in the Qur’an and Sunnah.

Leading the way in Islamic humanitarianism

Our new strategy for 2011-2015 provides the potential for crucial leadership in three vital areas:

- ◆ Understanding the threats to our world and preparing people for them
- ◆ Addressing the underlying causes of poverty through our programmes and policies
- ◆ Developing a deeper faith-based framework for humanitarianism and development that offers leadership and guidance on issues affecting the developing world.

Key strategic areas

We will be focusing on four strategic areas in our work from 2011 to 2015:

1. Protecting life and dignity

Islamic Relief has been providing emergency relief for over 25 years and we will continue to work in this critical area through disaster response, preparedness and risk reduction.

“Whoever saves one life, it is as if he saved all humankind.” Qur’an, 5:32

2. Empowering communities

Islamic Relief works to tackle both the symptoms and the causes of poverty. We will continue to work closely with local communities through integrated sustainable development programmes that empower people to bring positive, long-term, change to their lives.

“God does not change the condition of a people until they change what is in themselves.” Qur’an, 13:11

3. Campaigning for change

Islamic Relief is committed to giving marginalised people a voice so that they can articulate their rights and fulfil their needs. In accordance with the Prophetic example of speaking out against injustice, we will focus our advocacy work on facilitating and campaigning for social change.

“There is a reward for one who establishes justice among people.” Hadith, Prophet Muhammad ﷺ

4. Strengthening the Islamic Relief family

The Islamic Relief family has grown substantially over the last 27 years and in the coming period we aim to build a stronger partnership, with a governance system and infrastructure that makes us more effective in alleviating poverty and suffering.

“Whatever good you do, God is aware of it.” Qur’an, 2:215

Through all its work, Islamic Relief is committed to protecting child welfare, protecting the environment, strengthening local capacity and developing Islamic faith perspectives on humanitarian issues.

Qari Abid's children Habiba, Saad and Fahad play outside their family home rebuilt by Islamic Relief in Punjab, Pakistan.

10-year-old Shumella Bibi (right) and her friend receive medical care at a clinic in Muzafargarh, supported by Islamic Relief.

Achieving **our** aims

01 *Protecting life and dignity*

02 *Empowering communities*

03 *Campaigning for change*

04 *Strengthening the Islamic Relief family*

Protecting Life and **Dignity**

Aims

- ◆ Assist people in their time of need by responding to disasters and providing continued support to help them rebuild their lives
- ◆ Help communities at risk to prepare for disasters so that when they occur their devastating impact is reduced
- ◆ Prioritise disaster risk reduction at a local and national level among vulnerable populations in several countries
- ◆ Bring relief to food insecure communities around the world with seasonal food aid during Ramadan and Qurbani.

This was a year of great humanitarian need, which saw Islamic Relief delivering emergency programmes across the globe - responding to the Arab Spring in the Middle East and north Africa, the tsunami in Japan, and the food crisis in east Africa.

The world's poorest communities are often the most vulnerable to the effects of climate change and natural disasters, and building capacity and long-term resilience is increasingly central to our programmes. In this, coordinating and engagement with communities and existing institutions added significant value to our activities.

Our experience working with people suffering in disasters also hammered home that saving lives can be as much about tackling emotional wellbeing as about physical needs. Activities such as giving children opportunities to play, offering guidance and counselling, and helping people to build better and safer futures were important components of our integrated approach.

Above: Mohammed Akram, a labourer from Mashinwala in Pakistan, with his family who fell ill from drinking contaminated water after the floods that also destroyed their home. The family received medical care at an Islamic Relief mobile health clinic and Mohammed received tools to help him earn a living once again.

Emergency response to the Arab Spring

This year, the Arab Spring began in Tunisia and popular uprisings and protests quickly found ground in other countries as citizens mobilised to push for political change. As conflict and suffering swept the North Africa and Middle Eastern region, we mounted a unique and challenging humanitarian assistance programme. In this highly-charged and emotive context, remaining focused on humanitarian aid for civilians and drawing on our political neutrality was crucial.

- ◆ One of the first international organisations to respond at the outbreak of the conflict in Libya
- ◆ Convoy brought 20 tons of medical aid and baby milk into to Benghazi, plus food and hygiene items to vulnerable people in other eastern towns and cities
- ◆ Hygiene campaign saw over 10,000 cubic metres of waste removed from the city, where we also provided some respite for disabled children through our family fun days
- ◆ Food, hygiene kits and medical equipment and supplies distributed in five cities - including Misrata
- ◆ First to distribute food packages and hygiene kits at Ras Ajdir and Dehibat, border crossings to Tunisia, and in four camps
- ◆ Managed three camps on the Tunisian border, including Choucha camp - initially managed by the UNHCR - which hosted 18,000 people at its peak
- ◆ Child protection programme provided education and games for up to 300 children in Remada camp
- ◆ Helped more than 500 non-Libyans to leave the camps by chartering flights back to their home countries and provided support for Tunisia's healthcare system
- ◆ Weekly food packages delivered to 3,000 families in the south and 40,000 food packs distributed across Tunisia during the month of Ramadan
- ◆ Emergency aid supported many of the thousands that fled violence in Syria to seek to seek refuge in Lebanon.

“Thank you for helping us to look after our children and for bringing them joy- even for just a few hours a day.”

Ahmed Umar, Remada camp, Tunisia

A brighter future for young Palestinian refugees

More than 60% of Palestinian refugees in Lebanon’s Saida City survive below the breadline. As families struggle to pay school fees, many young Palestinians are dropping out of school to try to earn money, where they are at risk of exploitation. In 2011, we provided vocational sponsorships for students in two education centres - Khalifa Bin Zayed Center for Vocational Education, and Al Rahma center for Community Service. This provides vulnerable young people the skills and opportunities they need to access decent jobs, or set up their own businesses, and in turn support their families.

Integrated development in Pakistan

Major floods struck southern Pakistan in 2011, less than a year after swathes of the country were devastated by the worst monsoon floods in living memory. An estimated 5.4 million people were affected in Sindh and Balochistan, with more than 70% of crops wiped out and over one million homes destroyed. In 2011, we extended our multi-million pound integrated development programme to include some of the most vulnerable communities in Sindh province and Khyber Pakhtunkhwa. Designed to restore basic services and the local economy, our unique approach concentrated on shelter, clean water, hygiene and health, and creating opportunities for local people to earn a living once more.

- ◆ Work with provincial and district government saw local people empowered to rebuild their communities through village committees
- ◆ Schools repaired, roads cleared, permanent shelters built, and essential infrastructure mended. Communities gained access to clean water and

regular primary healthcare, and learned about the importance of hygiene

- ◆ People helped to earn a living through distribution of livestock, seeds, and fertiliser as well as cash for work schemes. Special training showed people how to grow food in their own gardens, and microfinance was available to support small enterprises.

Above: A farmer from the Thatta district of Sindh, Pakistan, where Islamic Relief provides livelihood support to those affected by the floods.

Top: Farzana, Abda, Jimshah, and Sidra play with water from the new water supply installed by Islamic Relief in Punjab, Pakistan.

Supporting futures in Haiti

Islamic Relief was one of the first organisations on the ground when a massive earthquake devastated lives in Haiti at the beginning of 2010, setting up the first organised camp in Port-au-Prince. While our early efforts concentrated on providing emergency assistance, by 2011 we were already working on the long-term development of communities.

- ◆ 453 transitional shelters and 20 latrines built, helping more than 2,000 people to leave behind the tents they had been living in
- ◆ Three schools repaired and a fourth fully reconstructed
- ◆ Vocational training courses gave hundreds of people opportunities to develop useful skills in computing, tailoring and carpentry.

Right: Fleurisma Flore, 19, has successfully completed vocational training and wants to work to support her family.

Above: Children play at the new Lycee Dumay School in Coix de Bouquet, Port-au-Prince, built by Islamic Relief.

Rebuilding communities in Iraq

The Ninawa governate is the origin of the highest number of displaced families in Iraq, after Baghdad and Diyala. A disputed territory with mixed ethnic and religious composition, it has seen substantial displacements of people and conflict over the years. Around 1,700 families had returned by 2011, but faced challenges such as security and livelihood prospects plus difficulties in accessing vital public services.

To encourage more people back to the area and prevent further displacement, we delivered a £650,000 programme, funded by the United Nations.

Focussing on female-headed families, we rehabilitated more than 350 homes in the Telfar district, installed 150 toilets, and laid 6,500 meters of water networks connecting three neighbourhoods to the main water station. Altogether, the scheme has benefitted more than 1,720 families - including that of Fidha Khudir Ali.

Fidha, 46, is a widow who is responsible for her handicapped father as well as seven children. In 2011 the family decided to return to the home that conflict forced them to leave behind six years earlier.

“Since we were forced to flee our house in Telfar, we’ve been in a financial crisis,” said Fidha. “Our house was only one damaged room. I tried all possible ways to get assistance.” Through our project, the house was extended, and toilet and shower facilities installed. “I can’t express my feelings,” said Fidha about her improved home.

Improving food security and healthcare in east Africa

In 2011, east Africa faced its worst drought in 60 years and 10 million of the region’s poorest people faced starvation as the rains failed for yet another year. The poorest families were hardest hit as food prices rose substantially, and tens of thousands of Somalis sought food and safety from fighting in nearby countries.

- ◆ £22 million emergency relief response in Kenya, Somalia, and Ethiopia supported over 1 million people with food assistance, and more than 400,000 with clean drinking water.

In addition, we recognised that communities suffered more because their resilience to disasters had been eroded by limited development investment and loss of traditional ways of coping. In northern Kenya, we teamed-up with Save the Children UK, Care International, and FH Association to deliver to strengthen resilience at the community and institutional levels.

- ◆ As well as giving people sustainable access to safe drinking water, the £3 million programme improved food security through food vouchers and cash-for-work opportunities that empowered local people to earn a living
- ◆ 300,000 local people benefitted from better access to healthcare as we strengthened the capacity of local health authorities to provide consistent basic services and respond to disease outbreaks and other emergencies.

Above: A child undergoes medical screening for weight loss at an Islamic Relief mobile clinic near Griftu village in Wajir, northern Kenya.

Top: An Islamic Relief food distribution near Griftu village in Wajir, northern Kenya, reaches remote communities.

Support for Sri Lanka’s vulnerable communities

Islamic Relief has been working in Sri Lanka since 2004, helping people to rebuild their lives following the devastating tsunami. So, when heavy rainfall and subsequent floods affected 1 million people and forced over 300,000 from their homes this year, we were able to respond quickly.

- ◆ Emergency response helped 10,000 families in the country’s eastern province. Our survival packs contained items to prevent the spread of disease, such as mosquito nets, as well as items such as warm clothes and bedding, food staples, and cooking utensils
- ◆ Project to clean and renovate water wells gave over 26,000 vulnerable people access to safe water once more, and our special guidance and counselling work helped many get to grips with practical and emotional issues in the aftermath of the disaster.

A child plays near flooded land in Batticaloa, Sri Lanka.

Building resilience in Bangladesh

Nearly one million people were affected when heavy monsoon rains caused major rivers to burst their banks in Bangladesh, one of the world’s most disaster-prone countries.

In 2011, we worked in Sylhet City Corporation and the districts of Netrakona and Gaibandha to strengthen the ability of institutional structures and communities to prepare for disasters, and to respond and recover when they happen.

Mobarat Ali Mondol, 73, lives with his paralyzed wife on a Gaibandha *char*, a riverine sand and silt landmass. Living in an area highly vulnerable to flooding, each rainy

“I knew something about preparing for floods before, but now I am better informed and educated.”

Mobarat Ali Mondol, Gaibandha, Bangladesh

season he was afraid that the waters would sweep away his land, livestock and home, as they have before. Islamic Relief and our partners the SKS Foundation implemented a project to raise four char homesteads – including Mobarat’s - above the flood-level. He now has elevated rooms and an open yard where his livestock and supplies such as *kuthi*, a store of rice, will be safe when the next flood comes.

“Whatever the water level, my home is safe now,” Mobarat said, already planning to grow food on the safety of his raised homestead. A member of the new Village Disaster Committee, through the project he’s also learning more about preparing for flooding through special community awareness sessions.

A photograph of a man with a mustache, wearing a patterned batik shirt, smiling and holding a large, yellowish-green cocoa pod. He is standing in front of a tree with large green leaves. The background is slightly blurred, showing more of the tree and some sky.

02

Empowering Communities

Aims

- ◆ Decrease the number of people earning less than a dollar day, suffering from hunger, and unable to access safe drinking water or basic sanitation, in our key target areas
- ◆ Ensure that all children in Islamic Relief's target areas, boys and girls alike, are able to complete their primary education
- ◆ Reduce maternal and under-five mortality in our target areas
- ◆ Halt and begin to reverse the incidence of malaria, tuberculosis, HIV and other epidemic diseases in our target areas
- ◆ Empower communities to have sufficient governance skills to manage their own development successfully
- ◆ Integrate the principles of sustainable development into all our programmes and beyond, and reverse the loss of environmental resources.

Everyone has the right to economic independence and self-determination, but in communities around the world marginalised and poor people face some of the greatest barriers to social justice. As part of our new strategy, addressing inequalities – especially in good governance, rights, gender justice, and child welfare – is embedded in many of our projects.

Our experience in 2011 demonstrated that we must work at all levels – from the individual, to the community, and the infrastructure around them – for empowerment to be successful. Together, we can provide the globe's most vulnerable people with real opportunities to improve their lives, and have their voices heard on the root causes of poverty and suffering.

Top: 47-year-old Hasballah, a crop farmer from Aceh Jaya, Indonesia, collects cocoa pods from trees planted by Islamic Relief.

Increasing **self-sufficiency** in the West Bank, Palestine

Agriculture, which is central in the Palestinian economy, is declining dramatically with the construction of the Separation Wall. The confiscation of land and water sources and the uprooting of trees and olive groves is leading many rural farmers to stop investing in their land and search for other sources of income, which in turn is impacting upon the country's economy.

“One of the major problems that we face is the lack of employment opportunities,” said Saleh Ahmad Radwan, who lives with his mother and nine siblings in Azzon. “Both my brother and I have finished our postsecondary education, but we cannot find jobs. We even cannot find work as labourers. We have to do with the little that we make from working our family's land.”

Saleh was one of hundreds to benefit from our project to increase self-sufficiency in the West Bank, by encouraging farmers to work in their own lands rather

than focusing on daily waged work. This holistic approach concentrated on rehabilitating agricultural land to increase its productivity, providing sources of water for irrigation in areas characterised by water scarcity, and constructing roads to make the land more accessible.

“The project enabled us to rehabilitate five dunums and plant them with olive trees, all sorts of crops and animal feed. It also helped my brothers and I find work,” said Saleh. We increased cultivated land by 500 dunums, (125 acres), improved food security and boosted the incomes of at least 370 families. It also created temporary and long-term employment for 150 farmers, as well as skilled and unskilled labourers.

Saleh Ahmad Radwan is now working on his own land with support from Islamic Relief.

Developing **sustainable sea fisheries** in Indonesia

The fisheries sector was once a major pillar of the local economy in Aceh province, Indonesia. But disasters such as the tsunami of 2004 and the Sumatra earthquake devastated the fishing industry and with it, the livelihoods that depended upon it. Many thousands of people fell into destitution. By 2010, we had begun our two-year programme to help Aceh's people to rebuild their fishing industry, and to strengthen and safeguard it for the future. The £3 million integrated scheme aimed to improve the prosperity of coastal communities in the districts of Singkil and Simeulue.

- ◆ Infrastructure and expertise at existing fish hatchery facilities developed to increase productivity and capacity to provide for the region's needs
- ◆ Facilities constructed to support the industry in trading, including upgrading two ice factories and building a refrigerated container for fish
- ◆ Local people empowered to set up and run fishing cooperatives, and provided with training so they can continue to successfully manage and market them

Nasir and his brother-in-law take out their fishing boat, repaired by Islamic Relief.

- ◆ Introduced and supported the uptake of innovative methods of fishing, giving people also opportunities to develop new industry skills
- ◆ Through developing market intelligence and creating networks, the cooperatives supported to establish valuable trade markets.

This unique programme helped create valuable jobs and enterprises that gave local people sustainable livelihoods and routes out of poverty, and supported wider strategies to increase international trade with Aceh and promote increased domestic and foreign investment in the region.

Unlocking economic potential in Chad

Rural communities are among the most vulnerable in Chad, a country that suffers from internal conflict and inadequate infrastructure. Chad is the second largest producer of Arabic gum in the world, with most of the 187,000 people living in the rural region of Salamat relying on this industry and its offshoots. However, 62% live on less than a dollar and gum production in the region is falling.

In 2011, we:

- ◆ Worked with local collectors, producers and communities to unlock more of Salamat's potential to boost income in Chad and create jobs to support the country's poorest people
- ◆ Local people in Am Habilé, Djouna, and Haraze Mouray supported to develop an organised and sustainable approach to managing and marketing their gum production
- ◆ Communities mobilized to work together through four production unions - created across 81 villages and more than 270 nomadic communities
- ◆ Plantings, packing centres and trading posts developed and new techniques, technologies, equipment and materials provided to enhance productivity and improve sustainability
- ◆ Access to micro-credit funded production and marketing provided
- ◆ More than 7,500 people are benefitting directly from the project, which has already enhanced production and marketing of the gum by 70%.

Above: Communities in Chad benefit from Islamic Relief's microfinance programmes that help them earn a living and become self-sufficient.

Improving lives in Niger

Agricultural land in Niger is threatened by expanding deserts, which already make up 80% of land in a country where most people depend on growing basic crops or raising livestock for their living. Flash floods followed irregular rains in 2011, leaving 200,000 people homeless in the midst of another food crisis.

In the Quallam and Tillaberi regions, many rural communities suffer a critical shortage of water. Often, the task of fetching water falls to women, who will spend much of their day looking for water and so have little time to spend generating an income.

In 2011, we:

- ◆ 12 boreholes constructed across a dozen villages and a solar-powered water system installed
- ◆ Local people provided with training to maintain the equipment and community committees established to oversee their management

Over 11,000 people now have sustainable access to safe drinking water within their villages. Not only does this reduce the threat of water-borne disease, it also cuts the time they need to spend journeying to water - making more time available for income generation.

“With the water solar pump system installed by Islamic Relief, we won’t have any problem accessing clean water in the village anymore.”

Hamidou Mamar, 69, Farka village, Niger

Tackling food insecurity in Mali

In 2011, the World Food Programme declared that around 3 million people in Mali were at risk of food insecurity, as the rains came late again, crop production dropped by 25% and food-prices rose to a five-year high. This underscored the importance of efforts to improve the food security of vulnerable rural communities.

Our project in the Timbuktu region entered its second year in 2011, and had already set up 116 irrigated plots of land. These 0.25 hectare plots were shared amongst 108 village producers in Banikane and Rharous, who also received seeds, fuel, agricultural equipment and access to micro-credit.

Capacity-building ensured local people worked together to secure productive yields from the land, and training on production and marketing helped them earn a living from the crops. Importantly, communities were engaged in promoting environmental sustainability. A particularly innovative aspect of the project saw the reforestation of a eucalyptus grove and re-vegetation of another plot. The income generated from this land provided significant

Communities are encouraged to plant trees around farmlands in Ghourma Rharous, north Mali, to help build their resilience to drought.

revenue to support the local school and women’s association that maintain them.

The first harvest produced over 97,000 tons of rice. This covered the needs of 1,250 local people and the surplus provided a valuable source of income for communities.

Promoting economic development around the globe

A range of micro-finance schemes operate across the world, but many drive poor people further into poverty with their interest charges. Our Islamic micro-finance provides Shari’ah compliant small loans, and, unlike conventional micro-finance, no interest is charged, so they offer a sustainable route out of poverty to some of the world’s poorest people.

For more than 10 years, our micro-finance programme has been helping people to work themselves out of poverty, and contributing to rebuilding the economy in Bosnia and Herzegovina - a region still suffering in the aftermath of violent conflict and war.

Shkelzen Janova, 30, is one of the thousands of people to access the scheme. He lives at home in Kosovo with his parents in, where he farms the family's land. The family have worked hard to rebuild what they lost during the Kosova war, and were able to buy some agricultural machinery through a small loan.

“Job creation is very necessary in our country, and we are very thankful for Islamic Relief’s support,” said Shkelzen.

Top: Bosnjic Asim from Siselo in Tuzla, Bosnia, built a greenhouse with a microfinance loan from Islamic Relief.

Above: Shkelzen Janova speaks to an Islamic Relief microfinance officer in Kosova. He used his loan to buy agricultural machinery.

In 2011, interest-free Qard Hasan, good loans, changed lives in Palestine, too.

25-year-old Zuhair Yousef Abu Al-Khair lives in Jabaliya in the north of the Gaza Strip. He was diagnosed with muscular dystrophy aged 11, and is confined to a wheelchair. A business administration graduate with a first class degree, when he joined our project in 2011 he picked out a vocational training course in mobile phones maintenance. These new skills, combined with his head for business, made him a perfect candidate for an Islamic Relief micro-credit grant to open his own shop. The grant helped him rent premises and purchase the equipment and stock he needed to get going.

“I never felt satisfied like how I feel at this moment,” he said, at the opening of his phone maintenance shop.

Empowering women worldwide

As part of our strategic focus on child welfare, we helped 350 widowed women in Ethiopia to earn an income and provide for their families. Working with women already receiving support through our one-to-one orphan sponsorship programme, we provided training in entrepreneurship, book-keeping, as well as childcare and development. Each woman was helped to prepare a business plan and provided with 5,000 Birr (£182) as a start-up capital for small business.

One of these women was 60-year old Workinesh Mohammed Mukhtar, who lives in Addis Ababa. She has five children and is the family’s breadwinner. Through Islamic Relief’s project she was able to get the training and funding she needed to set up a metal workshop. “All this helped me to create a better life for my family and pay for things such as a private water line, electricity, and school fees,” she said.

As well as supporting their family’s daily needs, many of the women on the scheme doubled their working capital within two years of starting their business.

In 2011, political unrest and violence continued in Darfur, western Sudan, where millions of people still live in the camps that were established when civil conflict erupted almost a decade ago.

Islamic Relief has been working for eight years to alleviate the suffering of people in camps Kerinding I and II. Women particularly struggled to have their voices heard within the patriarchal environment of the camps, so when in 2011 we initiated a further project on water,

sanitation, and hygiene we worked hard to promote the contribution that women can make as community leaders. As well as training and awareness-raising, the project strengthened the voice of women within the camps.

60-year-old Workinesh Mohammed Mukhtar, who lives in Addis Ababa, Ethiopia, received support to set up a metal workshop.

A widow and a member of a Hindu lower-caste, Mati Rani, 49, of Khemashat Sherpur village in Bangladesh, was one of 10,000 households to take part in our income generation project for ultra-poor women. Her handicraft business now provides a monthly income of around 8,000 taka (£59.90) with which to support her family.

03

Campaigning for **Change**

Aims

- ◆ Decrease the number of people earning less than a dollar day, suffering from hunger, and unable to access safe drinking water or basic sanitation, in our key target areas
- ◆ Ensure that all children in Islamic Relief's target areas, boys and girls alike, are able to complete their primary education
- ◆ Reduce maternal and under-five mortality in our target areas
- ◆ Halt and begin to reverse the incidence of malaria, tuberculosis, HIV and other epidemic diseases in our target areas
- ◆ Empower communities to have sufficient governance skills to manage their own development successfully

- ◆ Integrate the principles of sustainable development into all our programmes and beyond, and reverse the loss of environmental resources

Everyone has the right to economic independence and self-determination, but in communities around the world marginalised and poor people face some of the greatest barriers to social justice. As part of our new strategy, addressing inequalities - especially in good governance, rights, gender justice, and child welfare - is embedded in many of our projects.

Our experience in 2011 demonstrated that we must work at all levels - from the individual, to the community, and the infrastructure around them - for empowerment to be successful. Together, we can provide the globe's most vulnerable people with real opportunities to improve their lives, and have their voices heard on the root causes of poverty and suffering.

Mobilising Albanian communities to challenge blood-feuds

Thousands of lives in Albania continue to be blighted by a centuries-old tradition of blood-feuds, which is based on the custom of using murder to avenge a previous killing. Blood-feuds have existed in the Balkan country for over 3,000 years, and in Shkodra city at least 370 families are implicated in blood-feuds.

Following careful research and consultation Shkodra's community leaders, decision-makers, and people directly affected by blood-feuds, we launched a high-profile awareness campaign promoting forgiveness by encouraging people to donate blood. Thousands of people were reached by Albania's first ever television advert to tackle the issue.

We mobilised the community itself to challenge the practice, engaging hundreds of young people and their teachers through training, special questionnaires, and a competition across five high schools in Shkodra city. A Kite Day saw kindergarten children leading a procession

through the city's streets promoting the message, 'stop the blood-feud and think of the future'.

By 2011, this project had promoted a practical route out of the blood-feud spiral, encouraging people to make different decisions and build an environment for sustainable peace.

“Whoever saves [a life] - it is as if he had saved mankind entirely.”

Qur'an 5:3

Above: Kindergarten children lead a procession to help end blood-feuds in Albania.

Responding to humanitarian needs in the Arab Spring

Throughout 2011, the Arab Spring saw disenfranchised communities mobilising to create political change. As a wave of popular uprisings swept North Africa and Middle Eastern countries, Islamic Relief provided vital humanitarian assistance to people caught up in conflict and suffering as unemployment and inflation soared across the region - driving the poorest further into poverty. A coordinated campaign by the Islamic Relief partnership raised awareness across the globe of the on-going humanitarian needs, and from our established offices in the region continued to deliver emergency relief and development projects, including a unique programme to promote peace-building in Yemen.

Contributing to the healing process in Chechnya

This was also the year we kick-started a special mental-health project in Darban-hi village, in the Chechen Republic. Working within the village hospital, we began to restore much-needed therapeutic facilities that

were destroyed in the recent conflict. When complete, in 2012, an expected 330 patients will gain access to large greenhouses where they can cultivate vegetables as part of the healing process. “Our patients are very vulnerable, they need special care and attention,” said Dr Gelany Sataev, who has been the hospital's head doctor for 21 years. He and his colleagues are welcoming the benefits the greenhouses will create for patients.

“The work in a greenhouse will help to avert the syndrome of hospitalism, where a person becomes isolated from society and loses social skills.” Dr Sataev said, “Labour therapy will raise their self-reliance.”

Empowering women in Afghanistan to tackle drug-addiction

According to the UNODC, there are almost one million drug-users in Afghanistan, with consumption of opium having reached alarming proportions amongst women, children, and young people in the province of Balkh. Using the understanding gained from our work delivering basic healthcare in the Shortepa district of Balkh, we delivered a project that tackled one of the root causes of opium-addiction - and empowered local women to be agents of positive change within their communities.

Carpet-weaving is a traditional source of income for many Shortepa women, but long hours crouched over the loom causes backache and muscle pain. Many weavers become addicted to the opium they use to control the pain. Also, since a single carpet took around 150 days to complete, mothers commonly used the drug to make their young children sleep so they could work more continuously. As a result, the children often also became addicted.

The project worked with 140 women-weavers already engaged in our Drug Rehabilitation and Basic Health Project. The women received training and new looms, which allow them to complete carpets more quickly and to move more freely while working.

“Since we came to this project, we learned many things like dangers of narcotics, about healthcare, and how to use the new looms,” said 45-year old Laala Gul, “We can now reconcile all these in our daily life, and we can teach our relatives and neighbours too.”

Top: Women’s livelihoods projects in Afghanistan (Back on Track) teaching traditional weaving crafts to women being rehabilitated for drug abuse.

Welcoming greater **freedom of movement** for Palestinians

In 2011, we welcomed the Palestinian unity agreement, and with it the opening of the Rafah crossing, which allows the people of Palestine greater freedom of movement - creating new opportunities for them to earn livelihoods, access education and health services. Deeply concerned about the humanitarian situation in the area, we reiterated our pledge to support the reconciliation process, as part of a wider coalition of international agencies.

Enabling donors to **make a real difference** at Ramadan and Eid

Muslims with sufficient wealth (money or assets) celebrate the holy month of Ramadan and Eid al-Adha with charitable giving. Every year, millions of people choose to make a real difference to the lives of some of the world's poorest people through Islamic Relief.

Our local knowledge, experience and global presence allows us to operate effectively and efficiently. In 2011, we were able to mobilise our largest Ramadan and Qurbani food distributions ever, getting food to some of the poorest people in 27 countries around the world.

Mother of four Aisha Jacobs, 36, was one of the 3.4 million to benefit from Qurbani meat this year. She lives in Cape Town, South Africa, where the city's poorest families survive on an average of less than £3 a day. "We cope on the food parcels we receive, and also a child support grant," Aisha said.

One to One orphan sponsorship

Our sponsorship programme continued to provide a lifeline for around 25,000 vulnerable children across the globe in 2011. The one-to-one scheme, which includes a regular allowance to support the family's basic needs and access to healthcare, enables the children to attend school.

Nine-year old Kamissa Traore is one of almost 1,500 children benefitting from sponsorship in Bamako, Mali. She received medical treatment for an umbilical hernia through the scheme. "I'm not feeling any pain since my surgery. I am now going normally to school" Kamissa said. "I am also doing my small business", she smiled, talking of her enterprise selling sweets to other students.

Independence and integration for disabled children in Egypt

Our Early Intervention and Rehabilitation Centre based in Helwan, Egypt, has now been working with disabled and challenged children in Egypt for more than a decade. In 2011 alone, it helped to improve the lives of more than 1,300 children.

The Centre delivers specialist care to help the children develop the skills - social, linguistic, motor and behavioural - they need to live independently. Supporting the children to participate actively in community life is another important feature of our work, and the children enjoy sports days, theatrical performances, and exhibitions of their artwork.

Strengthening the Islamic Relief family

Aims

- ◆ Engage all our partner and field offices in strategic and operational matters in order to improve coordination and efficiency
- ◆ Meet the relevant international standards of governance, delivery, accountability, donor and beneficiary care
- ◆ Ensure global recognition of the Islamic Relief identity and work with a clearly defined vision, mission and values
- ◆ Improve the performance of the Islamic Relief family in poverty alleviation and advocacy work, with a greater percentage of net funds being spent on our programmes by 2015.

We are determined to fulfil our obligations to donors and beneficiaries to maximise the impact of our work in alleviating poverty and suffering. To achieve this, we need to ensure we meet international standards of governance and continually improve our performance

to create maximum impact with the funds entrusted to us. In 2011, we learned the value of a comprehensive review - assessing the changing environment in which we work, our own performance and motivations, and the relevance of our work we do - combined with meaningful engagement with both internal and external stakeholders. This gave us a solid base from which to develop our new global strategy and the new focus area of strengthening the Islamic Relief family.

An Indonesian family relocate to a new house built by Islamic Relief in Banda Aceh.

Islamic Relief’s **Waqf investments**

Islamic Relief collects Waqf and sadaqa jariyah (continuous charity) and invests the capital sum while the returns are given to charitable projects. Islamic Relief uses 80% of the returns on charitable projects. The remaining 20% is split equally between reinvesting in the capital amount and covering administrative costs. The main principles governing all investments are:

- 1. That funds are protected from risk and inflation
- 2. That Islamic principles are observed
- 3. That the best income is obtained from funds for its purpose

Waqf funds are invested in properties utilised by Islamic Relief. Rent is paid for the premises by the various sections of the organisation that use the premises purchased with Waqf funds including by the UK operation (Lower Marsh, London), the property used by TIC International (Landor Street, Birmingham), SIF Invest (Paris, France) and IRW (Sampson House, Birmingham). The international office (Rea Street, Birmingham) that was purchased in 1992 included a contribution from a donor (£130,000) that was intended to be held for procuring premises for IR use. This amount is held as Waqf but does not attract a rent return. Please refer to note 25.

The balance of Waqf funds at the beginning of the year was £3.3 million. The returns were £214,035 and the year-end balance was £4.5 million. Details can be found in note 34.

Investment policy and performance

The governing document (Memorandum and Articles of Association) empowers the charity to invest any available moneys in such investments, securities or property as it sees fit, subject to any conditions or consents that may be imposed or required by law. Islamic Relief Worldwide (IRW) will engage in short, medium or long-term investments, subject to the amount and nature of funds available. The policy applies to the centrally managed funds in the UK only and does not cover Islamic Relief offices in other parts of the world.

The main principles governing all investments are:

- 1. That funds are protected from risk and inflation

Above: Pupils from Al Huda School in a remote village in Alim Nagar in the Apara district of Sri Lanka, receive school bags, stationery and school shoes through a Waqf-funded project.

What is Waqf?

Waqf is the Islamic concept of permanent endowment where the capital is either invested and the returns spent on charitable purposes or the expenditure is incurred on Waqf projects that give benefits over a long period of time.

- 2. That Islamic principles are observed
- 3. That the best income is obtained from funds for its purpose.

Islamic Relief will invest in fixed assets such as property, equipment, stocks (with the exception of stocks related to areas mentioned under its ethical investment policy) or other current assets such as cash.

Ethical investment policy

Our investment policy is based on Islamic finance principles. Our investments will not be made in companies engaged in promoting, producing or trading in any of the following: weapons, pornography, alcoholic beverages, gambling, usury or any other areas deemed as inappropriate to the vision, mission and values of Islamic Relief, as stated by the Board of Trustees.

Governance

The Islamic Relief family is a global partnership with an annual income of in excess of £100 million. We continually seek to improve the impact of the humanitarian help we provide, as we owe nothing less to our beneficiaries, donors, and supporters.

“Our Global Strategy 2011-2015 sets out our commitment to developing the efficiency and effectiveness of the growing Islamic Relief family. Central to this is our work to strengthen our governance arrangements.”

In 2011, we developed a new international governance model that is designed to maximise the impact we make on the ground. Our objective is to make our valuable resources work harder than ever before, while also strengthening our ability to tackle the root causes of poverty and suffering.

The new arrangements aim to ensure that members of the Islamic Relief family are represented at all levels. What’s more, they will ensure that national organisations are fully involved in decision-making on a range of programmes, organisational priorities, and our expansion strategy, as well as improving how we operate on a regional basis.

An important part of the global partnership will be collaborative structures such as sector-based Working Groups made up of representatives from partner offices, designed to enhance management and coordination of their respective functions. Likewise, CEOs from across the partnership will meet around the newly-formed

‘International Family Council’, which has a non-executive mandate to exchange information, enhance cooperation and advise Islamic Relief trustees.

In 2011, some of these collaborative groups were already up and running and have begun to improve planning, implementation and impact across the organisation.

Future activities

Looking ahead, Islamic Relief will continue to progress the four strategic focus areas set out in our new global strategy. Our strategy also identifies a set of themes which we believe are crucial in our mission to tackle poverty and alleviate suffering. These are complex and over-lapping issues that are essential to our ability to tackle poverty and suffering at the roots, and we have committed to main-streaming these across our programmes.

Protecting children

Children are often the most vulnerable to trauma and suffering as a result of disasters and extreme poverty. Protecting them and ensuring their welfare is a priority in all our work, from disaster risk reduction to integrated development programmes.

We will ensure our programmes have a child focus and prioritise and mainstream protection, utilising where appropriate, references and an understanding of rights and protection from Islamic teachings.

Caring for the environment

Climate change has a devastating effect on some of the world's poorest communities and we are working to address this through several climate change adaptation projects. Environmental concerns are also increasingly becoming a feature of our wider programmes and advocacy work.

We will prioritise the development of risk reduction work in communities that are vulnerable to the effects of climate change and improve learning on environmental issues amongst our staff. We aim to become a carbon neutral organisation and work globally in an environmentally responsible way.

Providing Islamic perspectives

Islamic perspectives on humanitarian and social justice issues inspire all aspects of our work, although they have not always been well articulated or widely understood. The Islamic worldview on social issues is a perspective that is increasingly critical in our globalised world and particularly amongst Muslim communities that are affected by poverty and injustice.

We will be a policy leader on Islamic humanitarian issues. We will also prioritise the strategic and programmatic opportunities provided by our faith on development, humanitarianism, rights, sustainable livelihoods and micro-finance.

Strengthening local capacity

The capacity of local communities to govern and manage their own affairs has a direct impact on their ability to reduce their dependence on aid. Capacity-building within civil societies is an aspect of many of our community development programmes and we also support the Humanitarian Forum which focuses on this critical area of work.

We will develop strategic goals within a capacity-building and participatory framework, empowering local communities to manage their own affairs, from disaster preparedness and recovery to social mobilisation. We will also develop resources, share organisational learning and implement civil society capacity-building within our offices and programmes.

Developing our ability to deliver

A strategic geographic approach to emergency response and development across the world will further enhance our ability to respond rapidly and effectively to the challenges facing the world's most vulnerable people. We will develop geographic strategies that cover our regional and national work in delivering integrated development, as well as global and regional preparedness for emergency response.

Support for our programmes in 2011

Fundraising and Volunteers in the UK

Islamic Relief UK's key campaigns during 2011 were to raise £1 million to support our Pakistan programme and £7 million for East Africa and our Ramadan campaign.

2011 was an outstanding year for the UK office and their volunteers. With the annual fundraising drive during the Ramadan campaign, in 2011 we raised £28 million in the UK (please refer to note 7).

Fundraising dinners raised £175,000 to provide emergency aid for Libya, and a single evening in Manchester raised £100,000 to assist the people of flood-hit Pakistan. One of the world's best fast bowlers, Wasim Akram, participated in a dinner tour which raised £50,000. 10,000 people enjoyed our Noor ul Islam Summer fete, in support of our orphans sponsorship programme, and volunteers raised almost £200,000 pounding the pavements in Charity Week.

Our emergency response in East Africa received much-needed funding when a special dinner with our

ambassador, the renowned actress Hanan El Turk, raised nearly £65,000 and the international star Maher Zain gave a sell-out concert in Derby, raising £80,000. Islamic Relief UK raised a vast amount of coverage for the East Africa emergency, and Harriet Harman MP and actor Hugh Qurashie accompanied us to the field.

Our charity shops are the core focus for a majority of our donors especially during key campaigns such as our Ramadan campaign. What's more, volunteers from all corners of the UK joined in the efforts: from a 26-mile sponsored cycle in the Yorkshire dales, climbing Wales' highest mountain, to fun days in Blackburn and Rochdale and Eid in the Park in London.

International Fundraising Development Division

In 2011, we aimed to raise £8.2 million in the International Fundraising Development Division and managed to raise a total of £14 million (please refer to note 8).

The Bahrain Royal Charity pledged almost £750,000 to construct 10 boreholes, adding to fundraising in the Middle East worth almost £2.5 million, which will support our work to provide rural communities in Somalia with sustainable access to water.

Our efforts to help rebuild lives and strengthen communities in Haiti received a welcome boost, as we signed a £3 million agreement with the Islamic Development Bank (IDB) to rebuild a number of schools. In-kind donations for the crisis in Yemen topped £200,000, whilst Somali refugees in northern Kenya received almost £50,000 of food supplies and over £600,000 in children's clothing was provided to vulnerable families in Iraq.

The Spanish government also provided over £600,000 towards our Pakistan programme, and big-hearted Irish donors also contributed to our programmes – with almost £40,000 secured through our work with local partner, Islamic Foundation of Ireland.

Islamic Relief in Scotland

Islamic Relief has been working in Scotland since 1994, and were able to reinforce our commitment to our dedicated army of volunteers in the country by officially registering as a charity with the Office of the Scottish Charity Regulator (OSCR) on 14 January, 2011. The registration represents the charity's long-term commitment to Scotland and improves our links with influential Scottish policy-makers. Islamic Relief files its Annual Report & Financial Statements with the Charity Commission (England & Wales) and the Office of the Scottish Charity Regulator.

Volunteers are the backbone of our work in Scotland, and we have 150 student volunteers who support our media and marketing activities, as well as help establish vital partnerships and links with other organisations. Islamic Relief Scotland is proud of its grass-roots fundraising work, which centres on engaging the community in social, sports, and other recreational events. As well as running a popular charity shop in Glasgow, which is staffed by a diverse team of volunteers, we regularly work with schools to educate children on the concepts of charity in Islam, as well as cultural diversity and citizenship.

Highlights from 2011 include fundraising dinners for Pakistan and East Africa, and 120 volunteers joining in the Great Scottish Runs in Glasgow and Edinburgh. Glasgow City Council backed this year's Ramadan campaign, and the Scottish Government awarded funding for our vital work in Pakistan, East Africa, and Iraq.

Islamic Relief Australia

On 13 May 2011, a new legal entity, Islamic Relief Australia, was officially opened in Auburn, New South Wales. We were joined at the launch event by almost 200 guests, which included community leaders, politicians, government officials, and representatives from the diplomatic as well as the business and NGO communities.

In November 2011, IR Australia became a full signatory to The Australian Council for International Development (ACFID) Code of Conduct. The new office raised over £500,000 and in-kind donations worth almost £50,000.

New field offices

Islamic Relief was pleased to welcome a new registration for our field office in Egypt, following the change in the country's government in 2011. This year we also registered offices in Libya and Tunisia, further consolidating our commitment to the North Africa and Middle East regions.

Islamic Relief Worldwide (IRW) is constituted as a company limited by guarantee (number 2365572) and registered charity (number 328158). It was formed on 13 February 1984 as a charitable organisation, incorporated under the Companies Act 1985 on 28 March 1989 and registered with the Charity Commission on 24 April 1989. It is an organisation that is governed by its Memorandum and Articles of Association. In the event of winding up, members are required to contribute £1.

Board of Trustees

The Governance of IRW is the responsibility of the Company Directors, also known as Trustees for the purposes of charity law and which currently comprise seven in number. They are collectively referred to as the Board of Trustees. The Board of Trustees' obligation is to direct and control the organisation through the process of governance. It plans future aims and priorities, monitors current performance and measures progress. The Board of Trustees also appoint, appraise and dismiss the Executive management team and the CEO, (collectively known as the 'Board of Directors') and individually known as 'Directors' and 'CEO'. The Board of Trustees' focus is primarily on strategic planning and governance, which includes measuring strategic results achieved by management, satisfying the regulatory requirements of the charity, and fulfilling the Board of Trustees' responsibilities to all stakeholders.

Recruitment and appointment of Trustees

Members of the Board of Trustees devote their time voluntarily. When appointing trustees, emphasis is placed on the diversity of skills and knowledge that is required for a board to be effective. The selection process involves determining the necessary skills, knowledge and experience (given the operational climate and needs), identifying potential trustees, and promoting and explaining the activities of the board to potential trustees. Nominations for potential board members come from the various stakeholders and partners of Islamic Relief. The process may include personal approaches to potential candidates.

Induction and training of trustees

The induction process for new trustees includes an explanation regarding the function of the Board of Trustees and could include appointing a mentor for the new board member. A full overview of the organisation and its activities is provided, and the contributions the new member will be able to make are explored. Trustees

are given a welcome pack, which includes a copy of the Memorandum and Articles of Association, the financial statements, board minutes and the Charity Commission guidance The Essential Trustee, as well as recent publications.

IRW encourages ongoing training to fulfil the development needs of the trustees. This is achieved by encouraging trustees to identify personal training needs, and by providing training in new or emerging areas of responsibility. The Chief Executive Officer (CEO) keeps the trustees informed of changes in regulatory standards and training possibilities. Training is treated as an essential and regular board activity, ensuring it is professional, appropriate and evaluated.

Management restructuring

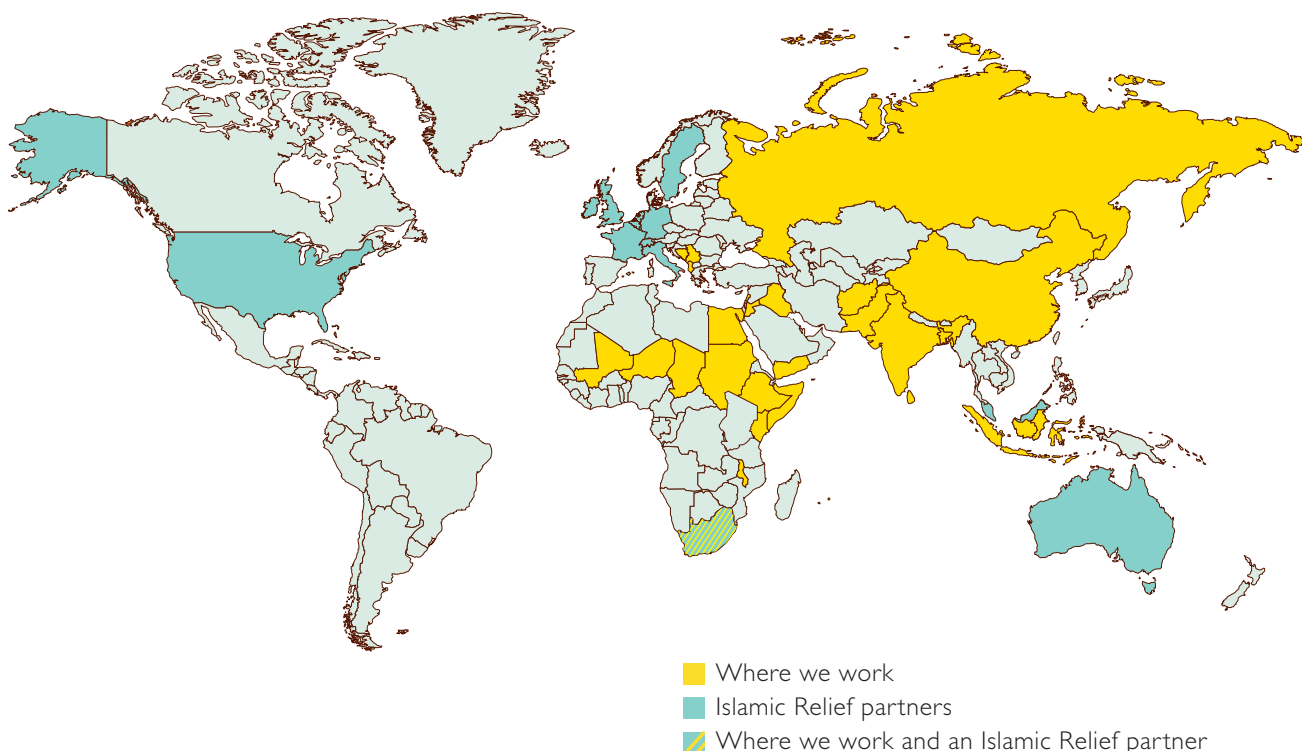

IRW has started the restructuring of its management in-line with its new strategy. The Board of Trustees is directly involved in assessing the progress of this process and implementing the approved strategy. The trustees are currently consulting with partners to ensure that future governance structures are fit for the purpose of the organisation.

The Board of Trustees receives regular reports on the performance of the organisation and the annual financial reports, along with plans and budgets. The Board of Trustees also approves any new policies and procedures. The Board of Trustees also approves any key new policies.

Key personnel

The CEO, along with other senior staff, is responsible for the day-to-day management of the organisation. The CEO is accountable to the Board of Trustees. The CEO chairs the Board of Directors, which is made up of the division directors and which supervises the daily activities of IRW. Division directors oversee the implementation of the policies laid down by the Board of Trustees and support the work of other staff and volunteers. All major humanitarian campaigns are co-ordinated from IRW, International Office.

Organisational Structure

The Islamic Relief global family

Islamic Relief Worldwide (IRW) is based in Birmingham, UK, and acts as the global implementing and co-ordinating partner of the Islamic Relief family. Funds are raised and awareness of the work of the family is undertaken by IRW and offices in the various jurisdictions known as 'national offices'. These national offices differ in their legal relationships and status with regard to the Islamic Relief family and countries in which they work.

Listed below are Islamic Relief national offices that are predominately involved in raising funds for overseas projects and which are registered as independent legal entities within their own jurisdiction. Only those funds that are transferred to IRW are included in these accounts:

- ◆ Belgium
- ◆ Canada
- ◆ Germany
- ◆ Italy
- ◆ Malaysia

- ◆ The Netherlands
- ◆ South Africa
- ◆ Sweden
- ◆ Switzerland
- ◆ USA
- ◆ Australia

IRW has also registered offices in:

- ◆ Ireland
- ◆ Mauritius

Offices that are engaged in implementing projects on behalf of the IR family some of which are independent legal entities are referred to as 'Affiliated Implementing Partners' and these include:

- ◆ Islamic Relief Bangladesh
- ◆ Islamic Relief Egypt
- ◆ Islamic Relief India
- ◆ Islamic Relief Kenya
- ◆ Islamic Relief Pakistan

Countries in which IRW implement projects through our own offices are:

- ◆ Afghanistan
- ◆ Albania
- ◆ Bosnia and Herzegovina
- ◆ Chad
- ◆ Egypt
- ◆ Ethiopia
- ◆ Haiti
- ◆ Indonesia
- ◆ Iraq
- ◆ Jordan
- ◆ Kosovo
- ◆ Lebanon
- ◆ Libya
- ◆ Malawi
- ◆ Mali
- ◆ Niger
- ◆ Occupied Palestinian Territories
- ◆ Russian Federation
- ◆ Somalia
- ◆ South Sudan
- ◆ Sudan
- ◆ Tunisia
- ◆ Yemen

Countries in which IRW work through the offices of local organisations to implement projects include:

- ◆ India
- ◆ China
- ◆ Sri Lanka
- ◆ Japan

TIC International Ltd

TIC International is a trading subsidiary and supports the fundraising activities of IRW by managing the clothes recycling operation, the charity shops and procurement of certain food supplies.

Working with other organisations

Islamic Relief works with other organisations towards realising common goals. These include:

- ◆ Catholic Agency for Overseas Development (CAFOD)
- ◆ Consortium of British Humanitarian Agencies (CBHA) through Save the Children UK
- ◆ Department for International Development (DFID)
- ◆ European Commission (EC)
- ◆ European Commission Humanitarian Aid Office (ECHO)

- ◆ Muslim Foundation for Culture and Development (MFCD)
- ◆ United Nations High Commissioner for Refugees (UNHCR)
- ◆ World Food Programme (WFP)
- ◆ World Health Organisation (WHO)

IRW is also a member of the Disasters Emergency Committee (DEC), a body of 14 agencies that co-ordinates emergency relief campaigns in the UK.

Directors’ and Trustees’ responsibilities

The directors are responsible for preparing the annual report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law, the directors have elected to prepare the group and parent company financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom accounting standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the group and company, and of the profit or loss of the group for that period.

In preparing those financial statements, the directors are required to:

- ◆ select suitable accounting policies and then apply them consistently
- ◆ make judgements and accounting estimates that are reasonable and prudent
- ◆ state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements
- ◆ prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company’s transactions and disclose with reasonable accuracy at any time the financial position of the company and the group and enable them to ensure that the financial statements comply with the Companies Act 2006 and the Charity Commission

Statement of Recommended Practice (SORP) 2005. They are also responsible for safeguarding the assets of the company and the group and hence taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are responsible for the maintenance and integrity of the company's website. Legislation in the UK governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Statement on disclosure of information to the Auditors

In accordance with Section 418, directors' reports shall include a statement, in the case of each director in office at the date the directors' report is approved, that:

- ◆ So far as the director/trustee is aware, there is no relevant audit information of which the company's auditors are unaware, and
- ◆ He has taken all the steps that he ought to have taken as a director in order to make himself aware of any relevant audit information and to establish that the company's auditors are aware of that information.

Grant-making policies

Islamic Relief provides grants to organisations and individuals if the request meets the charitable objectives and criteria set by IRW. After initial approval, applications are reviewed by a committee of senior personnel. Islamic Relief aims to ensure that all grant applications are treated equally and fairly. It remains at the discretion of IRW to make the final decision as to who is eligible to receive a grant.

Public benefit

Islamic Relief's strategic plans are developed to ensure that we provide maximum public benefit and achieve our objectives as set out in the Islamic Relief Strategy. These objectives fall under purposes defined by the Charities Act 2006.

Employees

IRW supports and develops the skills of its employees. All employees are encouraged to engage with the strategy and objectives, and to give their suggestions and views on performance and strategy. Islamic Relief is committed to the People in Aid (PIA) code of good practice.

We are an equal opportunities employer and have a policy of recruitment and promotion based on aptitude and ability without discrimination in any way or form. The policies at IRW are set to focus on training and career development for the majority of employees. For this reason, employees are assessed with supervision and an annual appraisal.

Help from volunteers gifts in-kind

Islamic Relief considers volunteers as the heart and soul of its operations and relies on them to be able to deliver its services. IRW undertakes the management of all its volunteers.

During 2011, volunteers in the UK alone contributed substantial hours of work to IRW operations by donating their time in the shops, through administration and by being involved in fundraising activities.

Environment

We are among the Top 100 charities in the UK. Islamic Relief Worldwide (IRW) does not view itself as having competitors in the corporate sense but rather fellow organisations operating in the same sector, working towards the common goal of providing humanitarian relief and alleviating suffering. This is illustrated, for example, by the joint working partnership of the leading charities through the Disasters Emergency Committee (DEC).

We are committed to ensuring that Islamic Relief meets all regulations and laws governing charities and has the appropriate technology and systems in place to meet the requirements of the donor, beneficiary and regulatory bodies.

With the downturn in the global economy we are taking measures to manage our cash-flow carefully, strengthen our reserves and provide a greater service to our individual donors through whom IRW receives the majority of its funding.

Financial Review

Income and funding

Our income increased from £69 million to £82 million in 2011. This income primarily derives from fundraising in the UK and funding from our Islamic Relief partner offices from across the globe; and income from institutions and trading.

Our ratio of unrestricted to restricted income was 15:85 (2010 - 20:80) which shows an increasing shift from our partner offices towards restricted funding and is consistent with the trend over the past five years.

Detailed analysis of our income and funding is shown in the Consolidated Statement of Financial Activities (SOFA) and the accompanying notes (Note 2 Voluntary Income, Note 5 and Note 36 Incoming Resources by Institution, Note 9 and Note 37 Donations disclosure by partner).

Our voluntary income continued to increase with the trend over the past year to £55 million. The five-year trend shows an increase from £29 million in 2007 to £55 million in 2011.

Aims:

- ◆ To achieve voluntary income of £50 million in 2011.

Through the generosity of our donors, our voluntary income remained consistent. This enabled Islamic Relief to continue to expand its charitable activities in both disaster response and sustainable development programmes.

	2007	2008	2009	2010	2011
	£ m	£ m	£ m	£ m	£ m
Total voluntary income	29	34	41	50	55
Grants	9	11	14	15	24
Donations from overseas partners	11	17	21	22	31

Funding from institutional donors

Aims:

- ◆ To work in partnership with other humanitarian organisations to facilitate cooperation, coordination and communication in delivering effective programmes.

We continued our commitment to the Millennium Development Goals through the Partnership Programme Agreement with the Department for International Development (DFID) in the UK, and the aims of our strategy reflect our contribution to achieving these essential global targets.

Our main increase in income in 2011 was driven by a 60% increase in our funding from institutions, in particular, from European Commission for Humanitarian Aid. Details of the funding are provided in Notes 5, 36 and 37.

	2007	2008	2009	2010	2011
	£ m	£ m	£ m	£ m	£ m
Grants	9	11	14	15	24
% of total income	22%	24%	26%	22%	29%

The Islamic Relief global family

Aims:

- ◆ To work in partnership with the Islamic Relief global family, thereby maximising our ability to effectively reach our beneficiaries.

Please refer to section who we are/what we do (page 39) to see the Islamic Relief global family.

Islamic Relief partners fund humanitarian programmes in advance of IRW’s commitment to incur the expenditure, thereby reducing the need to use unrestricted funds.

The Islamic Relief global family continued to increase funding for Islamic Relief’s humanitarian programmes.

Note 9 - to the Financial Statements shows total funds received by partners.

Note 37 - to the Financial Statements shows funds received by partners by project funded.

	2007	2008	2009	2010	2011

Expenditure

The Statement of Financial Activities shows the analysis of our charitable expenditure activities (Protecting Life and Dignity, Empowering Communities, Campaigning for Change) and governance and trading subsidiary costs (Strengthening the Islamic Relief partnership).

See graph A on page 44

Aims:

- ◆ To increase our charitable expenditure within our projected income of £52 million

Utilising our reserves we were able to increase our charitable expenditure from £56 million to £67million during 2011.

An overview of the expenditure by category shows how the expenditure has always been in line with the previous year. This ensures sustainable development of our charitable activities.

Charitable expenditure

The fact that our charitable expenditure remains in line with the previous year indicates our commitment to ensuring and delivering long-term sustainable development to beneficiaries, long after the emergency phase is over and the media attention has faded.

	2007	2008	2009	2010	2011
	£ million	£ million	£ million	£ million	£ million
Charitable expenditure	32	34	43	56	67
% increase	-7%	7%	26%	33%	18%

UK fundraising

Aims:

- ◆ To increase our marketing and fundraising activity in the UK to raise £20 million.

We met this target by raising £20 million.
The growth of income in the five-year period shown is an indication of increased donations, as a result of fundraising activities in the UK, international

fundraising (South America, Middle East) and by our overseas partners, through community-based and other initiatives.

Fundraising expenditure includes amounts related to specific campaigns during 2011 (£1.9 million or 30% of the fundraising expenditure); 2010 (£2.9 million or 49% of the fundraising expenditure).

Note 11 - to the Financial Statements shows fundraising expenditure by category

Governance

Governance costs include the costs of governing the organisation and strengthening the Islamic Relief global partnership.

Note 15 - to the Financial Statements shows governance expenditure by category

Performance of the trading subsidiary

TIC International is the trading subsidiary of the charity and undertakes textile recycling, management of charity shops and food supplies to the NGO community. The Food Supplies project provided affordable high quality canned meat vegetable supplies to beneficiaries during emergency humanitarian responses where local food supply is impacted by disasters or security issues. TIC International Ltd performance in 2011 has exceeded the Director's estimated profitability. Gross profit increased to £1.8 Million (2010: £1.1 Million).

TIC International Ltd continues to improve its performance year by year as a result of efficient clothes collection processes and our dedicated staff playing a pivotal role; they are the backbone of the company and consistently show their full loyalty and commitment to the company's mission.

An amount of £823,123 (2010: £219,446) will be donated to our parent company Islamic Relief Worldwide to support its efforts in alleviating the suffering of the world's poorest people.

G - Reserves against policy

Challenges

We are working towards implementing the strategy for the period 2011-2015, which provides the strategic direction for an ongoing commitment to ensure our humanitarian operations are contributing to a fairer, kinder world. The strategy document is available on our website at <http://www.islamic-relief.com/WhoWeAre>

The strategy will allow us to improve how we evaluate Islamic Relief's performance and measure the impact of our work. The purpose and rationale behind the strategy is to ensure that IRW is adequately positioned to meet any challenges and ensure that:

- ◆ the needs of beneficiaries are adequately and effectively met
- ◆ communication with donors is effective
- ◆ there is greater awareness of IRW's humanitarian programmes
- ◆ continuous improvement is made to the delivery and quality of the service
- ◆ to ensure that any challenges are overcome, IRW:
- ◆ set out its strategy for 2011–2015, and this is reviewed and used to monitor the achievements of deliverables
- ◆ has invested in developing strong teams that ensure effective delivery of humanitarian programmes, fundraising, awareness raising and providing support activities
- ◆ has enhanced performance monitoring through the Performance Improvement Unit and Internal Audit Unit
- ◆ has trained staff prepared for immediate mobilisation in the event of an emergency.

Risk Management

Islamic Relief's humanitarian work of protecting life and dignity and empowering communities entails working in fragile and conflict-zone countries.

The Board of Trustees have established an Audit Committee that is responsible for risk management and for monitoring the effectiveness of Islamic Relief's internal control environment.

The Evaluation and Audit function evaluate and audit Islamic Relief's systems, procedures and humanitarian programmes. The Evaluation and Audit function reports

to the Audit Committee on major risks identified. The Risk registers are maintained at country and departmental levels. Risks are assessed taking account of the likelihood of their occurring and the potential as well as the likely impact from such an eventuality. Action is taken to mitigate these risks.

Management is responsible for implementing agreed recommendations arising from evaluation and audit.

The Board continues to monitor risks in relation to reputation, the economic environment, major contracts, grant funding and impact management, misappropriation of funds among other areas. Where appropriate, actions have been taken to reduce these risks further.

Reserves

Reserves are held by Islamic Relief to ensure that adequate funds are available to meet obligations in emergencies, and that operations are not affected due to an absence of funds. Sufficient protection is built in to ensure there is no disruption to our global operations. Our reserves policy is reviewed annually to assess the risks and reflect changes in factors such as investments, income, financial obligations and commitments.

See graphs F and G on page 46

Aims:

- ◆ To discharge funds received as donations for our humanitarian programmes as quickly and as practically as possible.

The current target range is seven months reserves of the core operational budget plus an appropriate amount for emergencies. These funds are held in current and medium-term cash forms.

The general rule is that the amount of reserves held in current accounts should be 25% of the net reserves or 25% of the operational budget - whichever is greater. 55% of net reserves are to be maintained in medium-term investments, with the possibility of converting such investments into funds within a maximum period of three months. The remaining 20% of net reserves, as well as endowments and other long-term reserve contributions to IRW, can be maintained in fixed investments that would take longer to convert to funds. Table G illustrates this policy for 2011 and 2010. Post balance sheet, the Board of Trustees has reviewed

the reserves policy and this incorporates an evaluation of risk. The Board of Trustees has proposed to amend the reserves policy, setting a limit on the use of unrestricted reserves over and above which approval would be needed from the board. Reserves are monitored and amendments are proposed to both the policy and the level of reserves held.

See graph on page 46

Aim:

- ◆ To increase our unrestricted funds by 10%.

Islamic Relief reserves increased by 19%: these are made up of £23 million restricted reserves and £10 million unrestricted reserves.

Note 33 - to the Financial Statements shows restricted funds held by Country.

Restricted reserves increased by 6%, reflecting income received during the year primarily for Somalia.

Unrestricted reserves increased as we ensured more targeted funding for projects, reducing the need to use unrestricted funds. Most donors giving to Islamic Relief specify how they expect their donation to be used. Some donations are only restricted by country, which enables us to carry out projects required in that specific country. Other restrictions relate to specific seasonal campaigns such as Ramadan and Qurbani

The charity's assets

The fixed assets held by the charity include the properties held for its own use at 19 Rea Street South, and Sampson House, Sampson Road North in Birmingham. These properties comprise offices and were bought in 1992 and 2005 respectively. The value included in the balance sheet comprises the original cost of the properties in 1992 and 2005, plus the cost of major improvements since their purchase. In 2002, we bought a second property in Birmingham, which comprises a large warehouse and small offices. It is used by the trading subsidiary TIC International Ltd for additional warehouse space.

In 2008, IRW acquired 16 Lower Marsh, London SE1, which comprises offices, for its own use.

Auditors

A resolution to re-appoint Crowe Clark Whitehill LLP as auditors will be put to the members at the Annual General Meeting.

By the order of the board

Ibrahim El-Zayat

Director/Treasurer

25 July 2012

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF ISLAMIC RELIEF WORLDWIDE

We have audited the financial statements of Islamic Relief Worldwide for the year ended 31 December 2011 which comprise the Group Statement of Financial Activities and Income and Expenditure Account, the Group and Charity Balance Sheets, the Group Cash Flow Statement and the related notes numbered 1 to 40. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

This report is made solely to the charitable company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and to the charitable company's trustees, as a body, in accordance with section 44(1c) of the Charities and Trustees Investment (Scotland) Act 2005. Our audit work has been undertaken so that we might state to the charitable company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the charitable company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of trustees and auditors

As explained more fully in the Directors' and Trustees' Responsibilities Statement set out on page 40, the trustees (who are also the directors of the charitable company for the purposes of company law) are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view.

We have been appointed as auditors under section 44(1)(c) of the Charities and Trustees Investment (Scotland) Act 2005 and under the Companies Act 2006 and report in accordance with regulations made under those Acts.

Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

This report, including the opinions, has been prepared for and only for the charity's members and trustees as a body in accordance with section 44(1)(c) of the Charities and Trustees Investment (Scotland) Act 2005 and regulation 10 of the Charities Accounts (Scotland) Regulations 2006 (as amended) and Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the group's and the charity's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the trustees; and the overall presentation of the financial statements.

In addition, we read all the financial and non-financial information in the Trustees' Annual Report and any other surrounding information to identify material inconsistencies with the audited financial statements. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on financial statements

In our opinion the financial statements:

- give a true and fair view of the state of the group's and the parent charitable company's affairs as at 31 December 2011 and of the group's incoming resources and application of resources, including the group's income and expenditure and cash flows, for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the Companies Act 2006, the Charities and Trustees Investment (Scotland) Act 2005 and regulations 6 and 8 of the Charities Accounts (Scotland) Regulations 2006 (as amended).

Opinion on other matter prescribed by the Companies Act 2006

In our opinion the information given in the Trustees' Annual Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 and the Charities Accounts (Scotland) Regulations 2006 (as amended) require us to report to you if, in our opinion:

- the parent charitable company has not kept proper and adequate accounting records or returns adequate for our audit have not been received from branches not visited by us; or
- the parent charitable company's financial statements are not in agreement with the accounting records or returns; or
- certain disclosures of trustees' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

The statement of financial activities includes all gains and losses recognised in the year.

All incoming resources and resources expended derive from continuing operations.

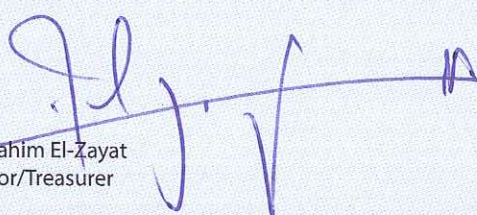

Islamic Relief Worldwide uses the exemption conferred by section 408 of the Companies Act 2006 in not preparing a separate Income and Expenditure Account for Islamic Relief alone as a separate entity. The net income for Islamic Relief as a charity for the year ended 31 December 2011 was £4.5 million (2010 net income £1.6 million).

NOTES TO THE FINANCIAL STATEMENTS

1. Principal accounting policies

a. Basis of preparation

The financial statements have been prepared under the historical cost convention and in accordance with applicable United Kingdom accounting standards, the Companies Act 2006 and adhering to the Revised Statement of Recommended Practice Accounting and Reporting by Charities (SORP 2005) effective since April 2005. The financial statements are prepared on the accruals concepts and going-concern basis thus presuming that the company will continue in business and the accounting policies mentioned have been consistently applied. (See note 40 for details of prior year adjustments included within the financial statements).

b. Going concern

We have set out in the Trustees' report a review of the financial performance and the charity's reserve position (page 47). We have adequate resources and are well placed to manage the business risks. Our planning process, including financial projections, has taken into consideration the current economic climate and its potential impact on the various sources of income and planned expenditure. We have a reasonable expectation that we have adequate resources to continue in operational existence for the foreseeable future. We believe that there are no material uncertainties that call into doubt the Charity's ability to continue. The financial statements have therefore been prepared on the basis that the charity is a going concern.

c. Consolidation and group financial statements

Islamic Relief Worldwide (IRW) is a charitable company limited by guarantee. Its main activities are delivering emergency aid to parts of the world affected by natural or unnatural disasters and setting up various development projects that help empower people in need.

The group financial statements consolidate those of Islamic Relief Worldwide and its trading subsidiary TIC International Limited and its property investment company SIF Invest. The results of TIC International Limited and SIF Invest have been incorporated on a line-by-line basis, in accordance with current legislation.

Islamic Relief Worldwide has taken advantage of section 399–402 of the Companies Act 2006 and paragraph 397 of the SORP and has not included its own income and expenditure account in the financial statements.

Note 10 gives the full details of the income and expenditure of the trading subsidiary. TIC International Limited is considered to be an intrinsic part of the charity's programme to relieve poverty in any part of the world. The donated items are a constant source of relief supplies.

Note 10 also gives the full details of the income and expenditure of the French subsidiary company SIF Invest, a company incorporated in France. Islamic Relief Worldwide owns 99% of the share capital of SIF Invest. The results have been consolidated within these financial statements.

The charity's overseas fundraising offices and field offices are established as separate independent legal entities in their own jurisdictions and, consequently, their results are not included within these consolidated financial statements.

d. Fund accounting

Islamic Relief Worldwide has various types of funds for which it is responsible, and which require separate disclosure.

Unrestricted funds: All donations are considered unrestricted unless specifically stated by the donor. Unrestricted funds comprise the accumulated surplus or deficit on the statement of financial activities which are available for use at the discretion of the trustees of Islamic Relief Worldwide in furtherance of the objectives of the charity. Islamic Relief Worldwide may incur costs on projects before the relevant restricted income is received. Therefore, income generated from restricted funds in this scenario is treated as unrestricted funds to cover the pre-financing costs of the project incurred.

Designated funds: The trustees may at their discretion set aside unrestricted funds for specific purposes. Refer to Note 31. The designated fund for fixed assets is that part of unrestricted funds that represent fixed assets held. Refer to Note 31.

Restricted funds: These are assigned by the donor, or the terms of the appeal, specified by a particular country or project. The donation and income deriving from them will be used in accordance with the specific purposes.

Endowment (waqf) funds: These are funds that have been given to Islamic Relief Worldwide subject to the restriction that they are to be held as capital or spent on a long-term charitable asset. Waqf is employed to generate a return while the original investment remains intact. Waqf returns are used to cater for long-term projects. The Waqf is the Islamic equivalent of endowments.

e. Incoming resources and investment income

All incoming resources are included in the Statement of Financial Activities (SOFA) when the charity is legally entitled to the income and the amount can be quantified with reasonable accuracy and there is certainty of receipt.

Voluntary income: Comprises all incoming resources from donations and income from fundraising partners on the basis of that which is remitted to Islamic Relief Worldwide in the United Kingdom. Where a claim for repayment of income tax has been or will be made, such income is included in the debtors' amount if still not received by the year end.

Grants: Where related to performance and specific deliverables these are accounted for, as the charity earns the right to consideration by its performance.

Activities for generating funds: Comprise income generated by TIC International Limited, from its trading activities and its charity shops and the sale of merchandise.

Investment income: Comprises income generated by waqf investment and rents receivable. Income generated from Waqf forms part of the endowment funds.

f. Gifts in kind

Gifts in kind for use by the charity are included in the accounts at their approximate market value at the date of receipt. Gifts in kind for distribution are included in the accounts at their approximate market value at the date of distribution.

g. Recognition of liabilities

Liabilities are recognised on the accruals basis in accordance with normal accounting principles, modified where necessary in accordance with the guidance given in the Statement of Recommended Practice for Accounting and Reporting (effective since April 2005) issued by the Charity Commission.

h. Resources expended

All expenditure is accounted for on an accruals basis and is recognised where there is a legal or constructive obligation to pay. Expenditure has been classified under headings that aggregate all costs related to that category.

NOTES TO THE FINANCIAL STATEMENTS

h. Resources expended continued

Costs of generating funds are costs incurred in attracting voluntary income, and those as stated below under the headings Costs of generating voluntary income, Fundraising trading.

Costs of generating voluntary income: The costs incurred in seeking voluntary contributions.

Fundraising trading: Comprises the group's trading activities, namely the costs associated with the trading activities of TIC International Limited.

Charitable activities: Costs associated with the provision of emergency relief and development humanitarian programmes as elaborated on in the trustees report section, Activities, Achievements and Performance. These include both the direct costs and support costs relating to these activities.

Governance costs: The costs associated with the governance arrangements of Islamic Relief Worldwide; included within this category are costs associated with the strategic as opposed to day-to-day management of Islamic Relief Worldwide's activities. This includes such items as internal and external audit, legal advice, and costs associated with constitutional and statutory requirements.

Support costs: Support costs to a single activity are allocated directly to that activity. Where support costs relate to several activities, support costs have been allocated to each of the activities (stated in Note 18) on the basis of the number of direct staff supported during the period in the relevant activity. Governance support costs are allocated on the basis of support activities provided on clearly interpreted governance matters.

Campaigning for change: Those costs associated with disseminating information and raising the profile of the charitable activities of Islamic Relief Worldwide.

Investment management cost: This incorporates costs related to the administration of waqf and costs relating to the promotion of the concept of waqf from unrestricted funds; therefore this element is not charged to capital.

The number of staff involved in an activity is deemed to be the appropriate basis for allocating support costs as it closely reflects the resource usage of the support functions of the core activities. The number of staff working on a particular activity is determined by the estimated equivalent time devoted by a full-time member of staff to perform the task. Support costs that represent the support functions of management, finance and accounts, human resources, IT and offices facilities are allocated to each activity, based on the number of staff performing a particular activity in relation to the total number of staff performing all core activities.

Grants are charged to the SOFA when a constructive obligation exists, notwithstanding that they may be paid in future accounting periods.

i. Operating leases

Rentals applicable to operating leases (where substantially all of the benefits and risks of ownership remain with the lessor) are charged against income as incurred. Rental costs under operating leases are charged to the profit and loss account in equal annual amounts over the period of the lease.

j. Foreign currencies

Transactions in foreign currencies are recorded at the rate of exchange ruling at the date of transaction. Monetary assets and liabilities denominated in foreign currencies are translated using the exchange-rate ruling at the balance-sheet date, and the gains or losses are included in the income and expenditure account. Foreign exchange gains and losses incurred in respect of humanitarian projects overseas are included in the charitable activities expenditure.

k. Fixed assets and depreciation

All expenditure of a capital nature is capitalised at cost as fixed assets with items costing below £500 being fully depreciated during the year of purchase. Assets that are subject to amortisation are tested for impairment whenever events or changes in circumstance indicate that the carrying amount may not be recoverable. Intangible assets represent the organisation's registered trade marks.

Tangible fixed assets are stated at historic purchase cost less accumulated depreciation. Cost includes the original purchase price of the asset and the costs attributable to bringing the asset to its working condition for its intended use. Depreciation is calculated to write off the cost of tangible fixed assets, less their residual values, over their expected useful lives using the straight-line basis. The expected useful lives of the assets to the business are reassessed periodically in the light of experience.

Freehold buildings	Over 50 years straight-line basis
Fixtures and fittings	Over 8 years straight-line basis
Office equipment	Over 4 years straight-line basis
Motor vehicles	Over 5 years straight-line basis
Plant and machinery	Over 8 years straight-line basis

l. Intangibles

Trademarks are stated at cost less any impairment loss. The useful life of the trademarks is estimated to be 10 years, based on the life of trademarks. They are amortised and tested for impairment annually where indicators of impairment are identified.

m. Stocks

Stocks and work in progress are stated at the lower of cost and net realisable value. Net realisable value is based upon estimated selling prices less further costs expected to be incurred for completion and disposal.

n. Investments

Long-term investments are classified as fixed assets and stated at current value. They consist of subsidiary undertakings, unlisted investments and property. Short-term investments are classified as current assets. Provision is made for any impairment in the value of fixed-asset investments.

o. Provisions

Provisions are recognised when the charity has a present legal or constructive obligation as a result of a past event, where it is probable that a transfer of economic benefit will be incurred and this transfer can be reliably estimated.

p. Pension costs

The charity operates a group personal pension scheme, which effectively means that all employees who join the scheme have their own pension plan. The contributions made by the charity are charged as expenditure in the year.

q. Taxation

As a registered charity, the company is exempt from income and corporation tax to the extent that its income and gains are applicable to charitable purposes only. Value added tax (VAT) is not recoverable by the company, and is therefore included in the relevant costs in the statement of financial activities.

* The Disasters Emergency Committee (DEC) is an umbrella organisation of 14 humanitarian aid agencies.

At times of overseas emergency, the DEC brings together a unique alliance of the United Kingdom's aid, corporate, public and broadcasting sectors to rally the nation's compassion, and ensure that funds raised go to DEC agencies that are best placed to deliver effective and timely relief to people most in need. For further information go to www.dec.org.uk

** International fundraising includes Middle East, South America and other countries Islamic Relief does not have a permanent presence in.

NOTES TO THE FINANCIAL STATEMENTS

25. Investments

	Total Group	Total charity
	£	£
As at 1 January 2011	368,290	464,155
Additions	62,000	62,000
Decrease in value	(33,169)	(33,169)
As at 31 December 2011	397,121	492,986

The investment in the charity relates to Islamic Relief Worldwide's investment in its subsidiary TIC International Limited. TIC International Limited provides clothing recycling services. TIC International Limited is incorporated in the United Kingdom.

The Investment in Properties refers to two properties:

The Investment in SIF Invest relates to Islamic Relief Worldwide's investment in SIF Invest, incorporated in France. Islamic Relief Worldwide owns 99% of the share capital of SIF Invest. SIF Invest is treated as a subsidiary in the group accounts. The decrease in value relates to the movement of profit and loss and exchange difference. The property is situated in France and has been revalued on an open market value by Catella Valuation FCC, France, on 31 December 2011 at €400,000, (£335,121). The historic cost of the property in 2000 was £252,000.

The second investment property is located in Bradford, UK and valued at £62,000. This property was gifted to Islamic Relief.

26. Stocks and work in progress

	Group	Charity	Group	Charity
	2011	2011	2010 (as restated)	2010 (as restated)
	£	£	£	£

Creditors: amounts falling due after more than one year				
Bank loan > 1 year	1,116,649	1,116,649	1,316,653	1,316,653

Other creditors represents amounts due to Islamic Relief implementing partners for projects committed to and implemented during 2011.

The bank loan is for a term of 10 years, although the loan agreement allows Islamic Relief Worldwide to repay lump sum repayments. In accordance with the terms of the agreement, a fee of 1.75% above the base rate is payable if the loan amount exceeds the aggregate credit balances as agreed. The bank loan is secured on the Waterloo premises.

29. Commitments

	Group	Charity	Group	Charity
Operating leases other than plant and machinery	2011	2011	2010	2010
	£	£	£	£
Expiring				
Less than one year	24,250	24,250	54,740	44,240
Between 2–5 years	13,200	13,200	31,836	31,836
More than 5 years	105,000	105,000	72,800	72,800
Total	142,450	142,450	159,376	148,876

As at 31 December 2011, the group had no capital commitments (2010: £nil).

30. Pension costs

The charity operates a group personal pension scheme, which effectively means that all employees who join the scheme have their own pension plan; it is not a company pension scheme.

NOTES TO THE FINANCIAL STATEMENTS

33. Restricted income funds - continued

Restricted funds are funds subject to specific trusts, which have been declared by the donors at the time of donation or created through legal process. All restricted funds of Islamic Relief Worldwide have been used to implement specific humanitarian projects in particular areas of the world stated above. Projects implemented include emergency response and development programmes to help vulnerable people restart their lives and to provide long-term sustainable benefits for a community, including orphan sponsorship, health and water supply and sanitation projects, agricultural projects, income generation, and educational projects.

Zakat funds (annual religious payments by able Muslims to help the poor) have been used to cover shortfalls in emergency, health, sustainable livelihood and water and sanitation projects implemented in various countries including Bangladesh, Kenya, Sudan and Yemen.

Negative funds balances are only carried forward when there is a reasonable expectation that funds will be received from donors for costs already incurred, as detailed over the following pages.

A. AFRICA: Funds are raised under an Africa appeal to be applied to projects within African countries.

B. East Africa: Funds are raised under an East Africa appeal to be applied to projects within East African Countries.

C. QURBANI: The Qurbani projects involve the distribution of meat as a result of the Eid Al Adha celebration (the celebration of sacrifice).

D. RAMADAN: The Ramadan projects relate to a programme of feeding the needy during the Muslim month of Ramadan.

E. Access to healthcare and water: The funds raised under Access to health and water have been utilised to under Access health and water projects within the countries listed on the following page.

Funders' key:

DEC: Disasters Emergency Committee

DFID: United Kingdom Department for International Development

EC: European Commission Humanitarian Aid Office

ECHO: European Commission Humanitarian Aid Office

IDRF: International Development and Relief Foundation

UNDP: United Nations Development Programme

Waqf funds are permanent endowment funds that are held within the charity to generate further funds. These are currently invested in the properties of Islamic Relief Worldwide. Waqf investments give a 7% annual return on capital from which projects are implemented for the purpose of waqf shares. A proportion of the return is also added back to the capital to ensure growth for reinvestment in future years. In 2011 income from these waqf investments amounting to £214,035 will finance future long-term sustainable humanitarian development projects. Sadaqa Jariya has been reclassified from unrestricted to waqf and £806k transferred from unrestricted income to endowments

NOTES TO THE FINANCIAL STATEMENTS

38. United Kingdom donations

We would like to sincerely express our gratitude to our donors in the United Kingdom – individuals, corporations, institutions and others who have generously donated, which has enabled us to deliver the emergency and development assistance to beneficiaries across the globe. While emergencies may receive more media attention the assistance and support of our donors means we continue to deliver humanitarian programmes in countries that are out of the media spotlight. Our sincere thanks to all our donors who facilitate us to reach beneficiaries in need. Thank you.

This note highlights some of the projects that have been made possible through your support and donations.

NOTES TO THE FINANCIAL STATEMENTS

40. Prior Year Adjustment

A prior year adjustment has been made in respect of in kind gifts and grants received from the Islamic Development Bank for projects in the region of Palestine.

The Trustees consider it more appropriate to recognise the value of the in kind gifts based on its accurate added value to the charity. These represent clothes received from Mothercare in UK and medical equipment from International Health Partners for the Pakistan Flood appeal.

This adjustment for the in kind gift has impacted the incoming resources for 2010 by £3,956,333 and the corresponding resources expended by the same amount. As a result there is no impact on the reserves brought forward.

The Trustees also consider it more appropriate to recognise the value of the grants that were sent to Islamic Relief Palestine directly from the Islamic Development Bank. The risks and rewards of this grant income remain with Islamic Relief Worldwide.

The adjustment for the grants received from the Islamic Development Bank for projects in Palestine has impacted the incoming resources for 2010 by £1,199,900 and the corresponding resources expended by the same amount. As a result there is no impact on the reserves brought forward.
